Level Three Curriculum:

Reading Strategies
Students continue to learn and revise strategies to assist them to read for meaning. They can use: questioning, inferring, making connections, summarizing, visualising, evaluating, prior knowledge and synthesising.

Performing Arts & Visual Arts
Students have already begun learning songs for the school Christmas Carols Family night. Grade 3 can be heard singing Frosty the Snowman and grade 4 are practising Rudolf the Red Nosed Reindeer. Students were creating hot and cold drawings in the art room, paying careful attention to their choice of colours.

Numeracy
We are currently using our experience with number bonds and times tables to help us to solve story problems. Students must find the key information in a problem and then select the best strategy to solve the problem.

Literacy
Students are learning about narrative writing. They are developing plans for their writing. They use a 5 paragraph model that focusses on opening, build up, complication, solution and ending.

Digital Excellence
Congratulations to those classes and students that have worked hard to achieve their first Digital Excellence badges. Grade 3 students have made posters to support their learning about cyber safety. Students can sew their badges on scarves purchased at the school.

Physical Education
Grade 3/4 sport has moved to an earlier time on Friday from 11.30 to 12.30. Students participate in a variety of indoor and outdoor games with Mr Stevenson and their classroom teachers.

Dates to Remember
- Eureka Tower/City Walk: Tuesday November 13
- Grade 3 Sleepover: December 6/7 (proposed date)
- Nude Food: continues every Wednesday
- Christmas Carols Family Night: Thursday 13 December

Mrs Caffyn and baby Jack recently called in for a visit. Both looked very well are very happy and enjoying life together as a family.

Drink Bottles and Hats
As the weather continues to improve please don’t forget to pack these items every day.
