Welcome to Foundation!
A huge welcome to all our families in Foundation Level! The students are settling in well—although tiredness is beginning to show by afternoon sessions. We have even had a few fall asleep on the mat after lunch! Foundation students are working through our “Setting the Climate Program” where we set up our classroom processes, expectations and familiarisation with this new big school! In class we are also playing and singing lots of songs to help get to know one another. School begins at 8:50am each morning. It is important that students arrive by this time so they can complete their Start of Day Processes. Learning can then begin at 9am.

Fruit / Vegetable Snack
Please supply your child with two serves of fresh fruit and/or vegetables a day. We stop for a break at 10am and usually have another just after 12. A great way to send these to school is in an extra container, separate from the playlunch and lunch food. This helps students get their fruit out quickly and independently. Bite sized pieces are easiest and best to leave the messier fruit, such as oranges, until home time.
