Senior Sub School Newsletter

Welcome

It is already looking like a busy year ahead so we would like to quickly welcome all students back to Chelsea Heights Primary School.

We would also like to welcome the fabulous Level 5B Teacher, Jacqui Sampson, and a couple of new faces in the Level 5 and 6 classes, David Rosser (6B) and Katie Breheny (5A). Our team is led by the lovely Liz Evans (6A).

There has already been lots of learning in our classrooms and we have set our expectations high for the year ahead.

Bring on 2014!!

Setting The Climate

Setting the climate sets the foundations for a productive learning environment where all students are clear on how they can be their best and work most effectively as part of a learning community.

It is a comprehensive 2 week program that focuses on:

- The importance and value of education
- Processes for classroom organisation
- Expectations within the school
- Agreements and Values
- Attributes of successful learners and what drives and stops learning
- Goal Setting : setting measurable goals and strategies for support in achieving these

WILSON MCKASILL—PLAY IS THE WAY
