SCHOOL VEGETABLE GARDEN
Now that our Winter crop has turned to seed, we have been busily pulling out old vegetable and planting our new Summer crop. We have found weeding a full time job. Luckily we have had plenty of helping hands from the grade 4’s and some ‘green thumbed’ parents! Well done to all the grades who are regularly composting. Composting is easy to do at home too and great for the environment.

A special thank you to Adrian McCarthy for supplying us with soil, seeds, seedlings and fertilizer. Thank you to Robyn Erwin who has lent us her time and expertise in the planting and maintenance of the garden and Jane Fitchett who has made us some really groovy plant labels made out of spoons. Go check them out next time you are in the school!

Lastly, thank you to those of you who purchased our tomato seedlings at the Art Show. From the money raised, we were able to purchase straw for mulching purposes.

Dates to remember:
State Transition Day — Tuesday 11th December
Grade 3 Sleepover — Thursday 6th December
Nude Food continues every Wednesday
Christmas Carols Family Night Thursday 13 December

TRANSITION SESSIONS
Students from across the school have now participated in two transition sessions in preparation for next year. There will be four of these sessions in total. The groupings in which the students will be in for the last session will be their 2013 grades.

The final transition will be held on Tuesday 11th December and this coincides with the State Transition Day.

EUREKA TOWER EXCURSION
Students in year 3 and 4 enjoyed their visit to the Eureka Tower. It was an opportunity for them to discover the many structural features and landscapes of our city. We toured over the West Gate Bridge to view the City skyline and we looked at iconic buildings such as Flinders Street Station, St Pauls Cathedral and Federation Square.
