

We are going paperless in 2019 we need your help today!

As a sustainable school who has an environmental focus and after discussions with School Council, we have identified the need to address our excessive use of paper.

Our office aims to be **paperless** by the commencement of 2019.

Our first step will be to **email** all invoices, statements and absence letters to our families.

Our second step is to use the **Updat-ed** and **Qkr!** Apps as our communication and payment tools.

Your role is to :

1. Update your **email address** through the SENTRAL Parent Portal
2. Download both the **Qkr!** and **Updat-ed** Apps.
3. Continue to sign **electronic permission forms** for excursions on Qkr!

These actions will ensure you avoid missing out on important information relating to your child and events around the school.

We will continue to publish notices and newsletters on the school website which can also be viewed easily on phone or tablet using the Updat-ed app.

No more lost notices not reaching home and no more paper waste.

Thank you

Chelsea Heights Primary School
